ABSTRACT

Resolution No. 3908

This resolution approves the process and establishes the criteria for programming the FTA Section 5307 and 5309 Fixed Guideway (FG) funds in the San Francisco Bay Area for FY 2009-10 through FY 2011-12.

Further discussion of the Transit Capital Priorities Policy is contained in the Executive Director's memorandum to the Programming and Allocations committee dated May 13, 2009, and the Programming and Allocations Summary Sheets dated May 13, 2009 and June 10, 2009.

RE: San Francisco Bay Area Transit Capital Priorities Process and Criteria

METROPOLITAN TRANSPORTATION COMMISSION
RESOLUTION NO. 3908

WHEREAS, the Metropolitan Transportation Commission (MTC) is the regional transportation planning agency for the San Francisco Bay Area pursuant to Government Code Sections 66500 et seq.; and

WHEREAS, MTC is the designated Metropolitan Planning Organization (MPO) for the nine-county Bay Area and is required to prepare and endorse a Transportation Improvement Program (TIP) which includes a list of priorities for transit capital projects; and

WHEREAS, MTC has worked cooperatively with the cities, counties and transit operators in the region to establish a process and a set of criteria for the selection of transit capital projects to be included in the TIP; and

WHEREAS, the process and criteria to be used in the selection and ranking of projects are set forth in Attachment A, which is incorporated herein as though set forth at length; now, therefore, be it

RESOLVED, that MTC approves the Transit Capital Priorities Process and Criteria as set forth in Attachment A; and, be it further

RESOLVED, that MTC will use the process and criteria to program Federal Transit Administration (FTA) Sections 5307 and 5309 funds for FY 2009-10 through FY 2011-12 to finance transit capital projects in the San Francisco Bay Area region; and, be it further

RESOLVED, that the Executive Director of MTC is authorized and directed to forward a copy of this resolution to FTA, and such agencies as may be appropriate.

METROPOLITAN TRANSPORTATION COMMISSION

Scott Haggerty, Chair

The above resolution was entered into by the Metropolitan Transportation Commission at a regular meeting of the Commission held in Oakland, California on June 24, 2009.

FY 2009-10 through FY 2011-12 Transit Capital Priorities Criteria

I. GOALS AND OBJECTIVES

The FY 2009-10 through FY 2011-12 Transit Capital Priorities (TCP) Criteria are the rules, in part, for establishing a program of projects for eligible transit operators in the San Francisco Bay Area Region's large urbanized areas (UA) of San Francisco/Oakland (SF/O), San Jose (SJ), Concord, Santa Rosa (SR), and Antioch; and the small urbanized areas of Vallejo, Fairfield, Vacaville, Napa, Livermore, Gilroy-Morgan Hill (GM), and Petaluma.

The goal of the TCP Criteria is to fund transit projects that are most essential to the region and consistent with Transportation 2035, the region's 25-year plan. The TCP applies to programming of the Federal Transit Administration (FTA) Urbanized Area Formula (Section 5307) and Fixed Guideway Modernization (Section 5309 FG) funds.

FY 2009-10 will be the first year under new federal transportation authorizing legislation, following the expiration of SAFETEA-LU in FY 2008-09. The TCP Criteria assumes there will be no major shifts in FTA funding programs, eligibility or policies under the new authorization. MTC and the Partnership will revisit and update the policy should changes in federal policy require revisions.

The region's objectives for the TCP are to:

Fund basic capital requirements: All eligible projects are to be considered in TCP score order, with emphasis given to the most essential projects that replace and sustain the existing transit system capital plant. MTC will base the list of eligible replacement and expansion projects on operators' Short Range Transit Plans (SRTP) service objectives, and capital plans. All projects not identified as candidates for the TCP process are assumed to be funded by other fund sources and are so identified in operators' SRTPs.

Maintain reasonable fairness to all operators: Tests of reasonable fairness are to be based on the total funding available to each operator over a period of time, the level and type of service provided, timely obligation of prior year grants, and other relevant factors. (A proportional share distributed to each operator is specifically not an objective.)

Complement other MTC funding programs for transit: MTC has the lead responsibility in programming regional Surface Transportation Program (STP) and Congestion Mitigation-Air Quality (CMAQ) funds, and State Transportation Improvement Program (STIP) funds. Transit capital projects are also eligible for funding under these federal and

state programs. Development of the TCP will complement the programming of STP, CMAQ, and STIP funds to maximize the financial resources available in order to fund the most essential projects for the San Francisco Bay Area's transit properties.

II. TCP APPLICATION PROCESS

The Transit Finance Working Group (TFWG) serves as the forum for discussing TCP and other transit programming issues. Each transit operator in the MTC region is responsible for appointing a representative to staff the Transit Finance Working Group (TFWG). The TFWG serves in an advisory capacity to the MTC Partnership Technical Advisory Committee (PTAC). All programming-related decisions are to be reviewed with PTAC. In general, the MTC Programming and Allocations Committee and the full Commission take action on the TCP and any other transit-related funding programs after the PTAC has reviewed them.

Capital Program Submittal. For the purposes of programming, project sponsors will submit requests for funding in accordance with detail instructions in MTC's call for projects. The level of detail must be sufficient to allow for MTC to screen and score the project.

Board Approval

MTC requires that operators seek board approval prior to programming projects in the TIP. The board resolution for FY 2009-10 programming should be submitted by July 8, 2009, the date when the Programming and Allocations Committee will consider the proposed program. If a board resolution cannot be provided by this date due to board meeting schedule constraints, applicants should indicate in a cover memo with their application when the board resolution will be adopted. Appendix 1 is a sample resolution of board support.

Opinion of Counsel

Project sponsors have the option of including specified terms and conditions within the Resolution of Local Support as included in Appendix 1. If a project sponsor elects not to include the specified language within the Resolution of Local Support, then the sponsor shall provide MTC with a current Opinion of Counsel stating that the agency is an eligible sponsor of projects for the FTA Section 5307 and 5309 FG Programs; that the agency is authorized to perform the project for which funds are requested; that there is no legal impediment to the agency applying for the funds; and that there is no pending or anticipated litigation which might adversely affect the project or the ability of the agency to carry out the project. A sample format is provided on Appendix 2.

Screening projects

MTC staff will evaluate all projects for conformance with the Screening Criteria (Section III) below. Certain requirements must be met for a project to reach the scoring stage of

the Transit Capital Priorities process. Operators will be informed by MTC staff if a project has failed to meet the screening criteria, and will be given an opportunity to submit additional information for clarification.

Scoring projects

MTC staff will only score those projects, which have passed the screening process. Based on the score assignment provided in Section IV below, MTC staff will inform operators of the score given to each project. Operators may be asked to provide additional information for clarification.

Programming Projects/Assigning projects to fund source

Projects will be programmed in the TCP in the year proposed. Project funds sources will be assigned by MTC staff and will be based on project eligibility and the results of Multi-County Agreement model. Projects passing screening and scoring criteria will be considered for programming in the TCP in the year proposed, however, projects will only be programmed in the Transportation Improvement Program (TIP) if the following conditions are met: 1) funding is available in the year proposed, and 2) funds can be obligated by the operator in the year proposed.

FTA Public Involvement Process and Transportation Improvement Program (TIP)

FTA Public Involvement Process: To receive a FTA grant, a grant applicant must meet certain public participation requirements in development of the FTA programs. However, as provided for in FTA Circular 9030.1C (revised October 1, 1998), FTA considers a grantee to have met the public participation requirements associated with the annual development of the POP when the grantee follows the public involvement process outlined in the FHWA/FTA planning regulations for the TIP.

Annual Programming in the TIP: MTC, in cooperation with the state and eligible transit operators, is required to develop a TIP for the MTC Region. The TIP is a listing of federally funded transportation projects and projects deemed regionally significant. The TIP is a four-year programming document. TCP programming in each year of the TIP will be financially constrained to the estimated apportionment level. Programming adjustments in the TIP will be done in consultation with eligible transit operators in the MTC region. In lieu of a separate public involvement process, MTC will follow the public involvement process for the TIP.

Changes to Transit Capital Priorities Program

Amendments may be allowed only in certain circumstances. The following general principles govern the changes:

- Amendments are not routine. Any proposed changes will be carefully studied.
- Amendments are subject to MTC and TFWG review.

- Amendments which adversely impact another operator's project will not be included without the prior agreement of other operators to the change.
- Amendments will be acceptable only when proposed changes are within the prescribed financial constraints of the TIP.
- Emergency or urgent projects will be considered on a case-by-case basis as exceptions.

Operators proposing the change must provide relevant information to substantiate the urgency of the proposed amendment. Projects that impede delivery of other projects will be considered only if an agreement can be reached between the affected operators for deferring or eliminating the affected projects from consideration.

Funding Shortfalls

If final apportionments for the FTA Section 5307 and Section 5309 FG programs come in lower than MTC has previously estimated, MTC staff will first redistribute programming to other urbanized areas with surplus apportionments in which the projects are eligible, and, second, negotiate with operators to constrain projects costs or defer projects to a future year. If sufficient resolution is not possible, MTC will consider additional information, including project readiness, prior funding (if the project is a phased multi-year project), whether the project had been previously deferred, and the amount of federal funds that each of the concerned operators received in recent years, in making reductions to programming.

Project Review

Each operator is expected to complete their own Federal grant application using FTA's Transportation Electronic Award and Management (TEAM) system. MTC staff will review grant applications and perform project review when required. In addition, MTC staff will submit concurrence letters and MTC project review resolutions to FTA on behalf of project sponsors as needed.

Program Period

Proposed projects will be used to develop a TCP program for FY 2010, and preliminary programs for FY 2011 and FY 2012. Initially, only the FY 2010 program will be amended into the region's Transportation Improvement Program. The preliminary programs for FY 2011 and FY 2012 will be revisited and potentially revised based on new information regarding the federal authorization and the development of project finance plans for upcoming major vehicle procurements. However, providing a preliminary three-year program is intended to help operators with multi-year capital budgeting, and to help the region take a longer-term view of capital replacement needs.

FY 2009-10 through FY 2011-12 TCP Development Schedule

To the extent possible, the region will adhere to the schedule proposed in the table below in developing the FY 2009-10 through FY 2011-12 TCP. If a change in the schedule is required, MTC will notify participants of the TCP development process in a timely fashion.

TCP Policy / Programming	Start Date	Finish/Due Date
Transit GMs/TFWG TCP Policy Discussions	June 4, 2008	June 3, 2009
Call for projects	May 18, 2009	June 1, 2009
Draft TCP Policy to PAC	May 13, 2009	
Final TCP Policy to PAC/Commission	June 10/24, 2009	
FTA/AB 664 program to TFWG	July 1, 2009	
FTA/AB 664 programs to PAC/Commission and amend TIP to add FY 2009-10 program	July 8/22, 2009	

III. PROJECT ELIGIBILITY

Federal Requirements and Eligibility

Federal Legislation

Projects selected will conform to the requirements of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) or its successor federal transportation authorization, Clean Air Act Amendments of 1990 (CAAA), the California Clean Air Act (CCAA), and the Americans with Disabilities Act (ADA).

Intelligent Transportation Systems (ITS) Architecture Policy

Project sponsors will be required to meet the Federal Transit Administration's National ITS Architecture Policy as established by FTA Federal Register Notice Number 66 FR 1455 published January 8, 2001 and as incorporated by the regional architecture policy which can be accessed at: <http://www.mtc.ca.gov/planning/ITS/index.htm>.

1% Security Policy

Project sponsors are also required to meet the FTA 1% security set-aside provisions as established in the FY 2004-05 Certifications and Assurances, FTA Federal Register Notice Number 69 FR 62521 published on October 26, 2004, and as it may be refined by FTA in future notifications. For project sponsors that are unable to meet the 1% security requirement, MTC will set-aside 1% of the total amount of FTA Section 5307 programmed to those sponsors for the purposes of meeting this requirement.

Program Eligibility

FTA Section 5307 Urbanized Area Federally Defined Program Eligibility (Statutory Reference: 49USC5307): Planning, engineering design and evaluation of transit projects and other technical transportation-related studies; capital investments in bus and bus-related activities such as replacement of buses, overhaul of buses, rebuilding of buses, crime prevention and security equipment and construction of maintenance and passenger facilities; and capital investments in new and existing fixed guideway systems including rolling stock, overhaul and rebuilding of vehicles, track, signals, communications, and computer hardware and software, and other related projects to meet unfunded mandates. All preventive maintenance and some ADA complementary paratransit service are considered capital costs.

FTA Section 5309 Fixed Guideway Federally Defined Program Eligibility (Statutory Reference: 49USC5309): Capital projects to modernize or improve fixed guideway systems are eligible including purchase and rehabilitation of rolling stock and ferries, track, line equipment, structures, ferry floats, ramps and other ferry fixed guideway connectors, ferry navigational equipment and related components, signals and communications, power equipment and substations, passenger stations and terminals, security equipment and systems, maintenance facilities and equipment, operational support equipment including computer hardware and software, system extensions, and preventive maintenance.

Regional Requirements and Eligibility

Urbanized Area Eligibility

Transit operators are required to submit annual reports to the National Transit Database. Service factors reported in large urbanized areas determine the amounts of FTA Section 5307 and 5309 FG funds generated in the region. MTC staff will work with members of the Partnership to coordinate reporting of service factors in order to maximize the amount of funds generated in the region and to determine urbanized area eligibility. An operator is eligible to claim FTA funds only in designated urbanized areas as outlined in Table 1 below. Eligibility is based on geographical operations, NTD reporting, and agreements with operators.

Table 1. Urbanized Area Eligibility

Urbanized Area	Eligible Transit Operators
San Francisco-Oakland	AC Transit, ACE, BART, Caltrain, GGBHTD, SFMTA, SanTrans, Union City Transit, Vallejo Transit, Water Emergency Transportation Authority, WestCat
San Jose	ACE, Caltrain, SCVTA
Concord	ACE, BART, CCCTA, LAVTA
Antioch	BART, Tri-Delta
Santa Rosa	GGBHTD, Santa Rosa City Bus, Sonoma County Transit
Vallejo	City of Benicia, Napa Vine on behalf of American Canyon, City of Vallejo, WestCat
Fairfield	Fairfield-Suisun Transit
Vacaville	Vacaville Transit
Napa	Napa VINE
Livermore	ACE, LAVTA
Gilroy-Morgan Hill	Caltrain, SCVTA
Petaluma	GGBHTD, Petaluma Transit, Sonoma County Transit

- (i) Altamont Commuter Express (ACE) is eligible to claim funds in four of the San Francisco Bay Area's urbanized areas according to Federal Transit Administration statute. ACE has entered into an agreement with other operators eligible to claim funds in the San Jose UA, which prevents ACE from claiming funds in that UA. Likewise, ACE has also determined that they will be reporting their Livermore area revenue miles in the Stockton UA and have elected not to seek funding from the Livermore UA. The project element that the Regional Priority Model would apportion to these two urbanized areas will be deducted from the total amount of their capital request. ACE operates on track privately owned by Union Pacific. Requests for track rehabilitation, maintenance, and or upgrades for funding in the San Francisco-Oakland and Concord UAs will be assessed for eligibility upon review of the ACE and Union Pacific agreement.
- (ii) Santa Rosa City Bus and Sonoma County will apportion Santa Rosa urbanized area funding in accordance with previous agreements (75% Santa Rosa City Bus and 25% Sonoma County).
- (iii) Golden Gate Bridge and Highway Transportation District (GGBHTD) is eligible to claim funds in the Santa Rosa Urbanized Areas. However, as a result of an agreement between the operators and discussion with the TFWG, GGBHTD will not claim funds from the Santa Rosa UA at this time. However, should it become advantageous to the region for GGBHTD to report revenue miles in the Santa Rosa UA and thereby claim funds in that UA, agreements between the operators will be re-evaluated. Golden Gate is an eligible claimant for funds in the Petaluma UA,

and in years where extensive capital need in other urbanized areas in the region is high; Golden Gate's projects could be funded in the Petaluma UA.

- (iv) WestCat is an eligible claimant in the Vallejo UA but will report revenue miles in the San Francisco-Oakland UA in order to maximize funding to the region. Therefore, WestCAT will claim funds exclusively in the San Francisco-Oakland UA.
- (v) Funding agreements between operators in the San Jose and Gilroy-Morgan Hill UAs are subject to the conditions outlined in the Caltrain Joint Powers Board Agreement.
- (vi) The Water Emergency Transportation Authority (WETA) is an eligible claimant in the San Francisco-Oakland UA starting in FY 2009-10 contingent on WETA's adoption of a transition plan for the assumption of responsibility for the Alameda and Vallejo ferry services, including responsibility for replacement and rehabilitation of Alameda's and Vallejo's ferry capital assets, as required by SB 976. If WETA does not adopt the transition plan, any TCP funds programmed to WETA would be reprogrammed to other eligible operators.

Eligibility for New Operators

New operators will be required to meet the following criteria before becoming eligible for TCP funding:

- The operator provides public transit services in the San Francisco Bay Area that are compatible with the region's Regional Transportation Plan.
- The operator is an FTA grantee.
- The operator has filed NTD reports for at least two years prior to the first year of programming, e.g., has filed an NTD report for 2008 services and intends to file a report for 2009 to be eligible for FY10 TCP funding.
- The operator has executed a Cooperative Planning Agreement with MTC.
- The operator has submitted a current SRTP to MTC.

Screening Criteria

A project must conform to the following threshold requirements before the project can be scored and ranked in the TCP project list. Screening criteria envelops three basic areas. The following subheadings are used to group the screening criteria.

- Consistency Requirements;

- Financial Requirements;
- Project Specific Requirements;

Consistency Requirements: The proposed project must be consistent with the currently adopted Regional Transportation Plan (RTP). Smaller projects must be consistent with the policy direction of the RTP, as the RTP does not go into a sufficient level of detail to specifically list them.

Projects near or crossing county boundaries must be consistent/complementary with the facility (or proposed facility) in the adjacent county.

Projects must be included in an operator's Short Range Transit Plan, and in an adopted local or regional plan (such as Congestion Management Programs, Countywide transportation plans pursuant to AB3705, the Seaport and Airport Plans, the State Implementation Plan, the Ozone Attainment Plan, the Regional Transportation Plan, and local General Plans).

Financial Requirements: The proposed project has reasonable cost estimates, is supported by an adequate financial plan with all sources of funding identified and a logical cash flow, and has sensible phasing. Transit operators must demonstrate financial capacity, to be documented in the adopted TIP, as required by the FTA. All facilities that require an ongoing operating budget to be useful must demonstrate that such financial capacity exists.

Project Specific Requirements: All projects must be well defined. There must be clear project limits, intended scope of work, and project concept. Planning projects to further define longer range federally eligible projects are acceptable. Examples of score 16 projects include:

- Replacement/rehab of one revenue vehicle sub-fleet or ferry vessel; a sub-fleet is defined as the same bus size, manufacturer, and year; or any portion of a train set that reaches the end of its useful life at a common time.
- Train control or traction power replacement/rehab needs for a given year.
- Fixed guideway replacement/rehab needs for a given year (e.g., track replacement and related fixed guideway costs, ferry fixed guideway connectors).

All projects must be well justified, and have a clear need directly addressed by the project.

A proposed project includes an implementation plan that adequately provides for any necessary clearances and approvals.

The proposed project must be advanced to a state of readiness for implementation in the year indicated. For this requirement, a project is considered to be ready if grants for the project can be obligated within one year of the award date; or in the case of larger construction projects, obligated according to an accepted implementation schedule.

Asset Useful Life

To be eligible for replacement or rehabilitation, assets must meet the following age requirements in the year of programming:

Table 2. Useful Life of Assets

Bus*	12 years
Over-the-Road-Coaches*	14 years
* (or an additional 5 years for buses rehabilitated with TCP funding)	
Van ¹	4, 5, or 7 years, depending on type
Light Rail Vehicle (LRV)	25 years
Trolley	15 years
Heavy Railcar ²	25 years
Locomotive	25 years
(or an additional 20 years for railcars rehabilitated with TCP funding)	
Heavy/Steel Hull Ferries	30 years
(or an additional 20 years for railcars rehabilitated with TCP funding)	
Light Weight/Aluminum Hull Ferries ³	25 years
Used Vehicles ⁴	Varies by type
Tools and Equipment	10 years
Service Vehicle	7 years
Non-Revenue Vehicle	7 years
Track	Varies by track type
Trolley Overhead/3 rd Rail	Varies by type of OVHD/3 rd rail
Facility	Varies by facility and component replaced

Notes:

- (1) A paratransit van is a specialized van used in paratransit service only such as service for the elderly and handicapped. Three general categories of vans are acceptable in Transit Capital Priorities: Minivans, Standard Conversion Vans, and Small Medium-Duty Coaches. The age requirements for each type are 4, 5, and 7 years respectively.*
- (2) Includes Caltrain and ACE commuter rail and BART urban rail cars.*
- (3) Light weight ferries will not generally last beyond a 25-year useful life. Propulsion and major component elements of lightweight ferries can be replaced in TCP without extending the useful life beyond its anticipated useful life of 25 years.*

(4) Used vehicles are eligible to receive a proportionate level of funding based on the type of vehicle and number of years of additional service. (See “used vehicle replacement” Section IV, Definition of Project Categories).

Exceptions for replacement of assets prior to the end of their useful life may be considered only if an operator has secured FTA approval for early retirement, which must occur before the annual apportionment has been released.

Compensation for Bus Replacement Beyond Minimum Useful Life

Operators that voluntarily replace buses or vans beyond the minimum federally eligible useful life specified in the table above will be eligible for either of two financial compensations:

Option 1. Operators receive all of the savings, but need to apply the savings to capital replacement and rehab projects (Score 10-16).

Option 2. Operators receive half of the savings to the region created by later replacement of vehicles, which may be programmed to lower scoring eligible projects.

Savings to the region are calculated based on the pricelist cost and minimum useful life of the vehicle type. For example, if replacement of a bus with a 12-year useful life and a \$600,000 replacement cost (federal share) is deferred for two years, the savings to the region would be $2/12 \times \$600,000 = \$100,000$. Under Option 1, the operator would receive \$100,000 for eligible Score 10-16 capital projects. Under Option 2, the operator would receive \$50,000, which would be treated like flexible set-aside. The region would retain the other \$50,000 in savings to be programmed to other needs in accordance with the TCP policy. Operators may choose between Option 1 and Option 2.

For operators that are proposing to take advantage of the bus replacement compensation, the vehicles being replaced must be older than the age requirements listed above. It is the operator's responsibility to ensure that vehicle replacement requests beyond the minimum useful life maintain a state of good repair for the assets. Requests to activate this policy option should be noted when transmitting project applications to MTC.

Project Funding Caps

In order to prevent committing a significant portion of the programming to an operator in any one year, the following annual funding ceilings for projects are established:

Revenue vehicle replacement projects cannot exceed \$20 million for buses or \$30 million for rail car or ferry vessel replacement and rehabilitation projects, in the aggregate for both Section 5307 and Section 5309 FG programs.

Fixed guideway replacement and rehabilitation projects in the aggregate cannot exceed the amounts specified for each fixed guideway operator in Table 3.

Table 3. Fixed Guideway Caps

FG Operator	Project Category	Fixed Guideway Cap
ACE ¹	All Eligible FG Categories	1,460,000
BART	All Eligible FG Categories	41,520,000
Caltrain	All Eligible FG Categories	13,270,000
GGBHTD	All Eligible FG Categories	5,660,000
SFMTA	All Eligible FG Categories	36,280,000
Vallejo	All Eligible FG Categories	3,680,000
VTA	All Eligible FG Categories	9,450,000
WETA (for Alameda Ferries)	All Eligible FG Categories	3,680,000

- 1) Amount for ACE limited to Bay Area eligibility in SFO and Concord UA or 52.85% of regional total.
- 2) Programming for WETA will be made contingent on adoption of the transition plan for assumption of responsibility for the Alameda and Vallejo ferry services required by SB 976.

The cap amount may be programmed to any projects that are eligible for FTA Section 5309 FG funding and that fall into one of the following categories:

- Track/Guideway Replacement/Rehabilitation
- Traction Power Delivery
- Train Control/Signaling
- Dredging
- Ferry Fixed Guideway Connectors
- Ferry Major Component Replacement
- Ferry Propulsion Replacement
- Cable Car Infrastructure
- Wayside Fare Collection Equipment

Programming for all projects that fall within these categories must be within the operator's cap amount.

Other replacement projects cannot exceed \$7.5 million.

Expansion or enhancement projects cannot exceed \$3.75 million.

As part of the region's 10-year Capital Improvement Program, project caps may be increased or decreased on an annual basis in order to better match programming to available revenues, subject to negotiation and agreement among operators and MTC; however, over a multi-year period, the caps must average to the amounts indicated above in order to keep the TCP program within its fiscal constraints.

Exceptions to these annual funding ceilings will be considered by MTC and the TFWG on a case-by-case basis after evaluating programming requested through the call for projects, and the region's estimated fiscal resources. For large rehabilitation programs, MTC may conduct negotiations with the appropriate sponsor to discuss financing options and programming commitments.

Bus-Van Pricelist

Requests for funding for buses and vans cannot exceed the prices in the Regional Bus-Van Pricelist for each year of the TCP program as shown in Table 4, Table 5 and Table 6.

Table 4: Regional Bus-Van Pricelist, FY 2009-10

Vehicle Type	Total	Federal	Local	Federal %	Local %
Auto	27,000	22,530	4,470	83.44%	16.56%
Minivan Under 22'	49,000	40,887	8,113	83.44%	16.56%
Cut-Away/Van Under 26', 4 or 5-Year, Gas	76,000	62,034	13,966	81.62%	18.38%
Cut-Away/Van Under 26', 4 or 5-Year, Diesel	101,000	82,441	18,559	81.62%	18.38%
Cut-Away/Van Under 26', 4 or 5-Year, CNG	113,000	92,236	20,764	81.62%	18.38%
Cut-Away/Van Under 26', 7-Year, Gas	106,000	87,980	18,020	83.00%	17.00%
Cut-Away/Van Under 26', 7-Year, Diesel	142,000	117,860	24,140	83.00%	17.00%
Cut-Away/Van Under 26', 7-Year, CNG	158,000	131,139	26,861	83.00%	17.00%
Cut-Away/Van 26'+, 4 or 5-Year, Gas	80,000	65,299	14,701	81.62%	18.38%
Cut-Away/Van 26'+, 4 or 5-Year, Diesel	107,000	87,338	19,662	81.62%	18.38%
Cut-Away/Van 26'+, 4 or 5-Year, CNG	119,000	97,133	21,867	81.62%	18.38%
Cut-Away/Van 26'+, 7-Year, Gas	111,000	92,130	18,870	83.00%	17.00%
Cut-Away/Van 26'+, 7-Year, Diesel	149,000	123,669	25,331	83.00%	17.00%
Cut-Away/Van 26'+, 7-Year, CNG	166,000	137,779	28,221	83.00%	17.00%
Transit Bus 30' Diesel	460,000	371,015	88,985	80.66%	19.34%
Transit Bus 30' CNG	514,000	414,569	99,431	80.66%	19.34%
Transit Bus 30' Hybrid	621,000	500,871	120,129	80.66%	19.34%
Transit Bus 35' Diesel	473,000	381,415	91,585	80.64%	19.36%
Transit Bus 35' CNG	530,000	427,379	102,621	80.64%	19.36%
Transit Bus 35' Hybrid	639,000	515,274	123,726	80.64%	19.36%

Articulated 60' Hybrid	986,000	792,677	193,323	80.39%	19.61%

Notes:

Prices escalated 3.0% annually, rounded to nearest \$1,000

Prices for buses and cut-aways include allowances for radios, fareboxes and Translink wiring and brackets.

To calculate price without fareboxes and radios multiply values by .9822

To calculate price without fareboxes multiply values by .9862

To calculate price without radios multiply values by .9960

To calculate price without Translink wiring and brackets subtract \$1,640

Note that bus prices include allowances for radios, fareboxes and Translink wiring and brackets. It should be noted in the project description if buses will be procured without these items, and programmed amounts will be adjusted as specified in the pricelist. Operators are encouraged to

include Translink wiring and brackets in all new buses, so the buses are Translink-ready without requiring additional expenses.

IV. PROJECT DEFINITION AND SCORING

Project Scoring

All FTA Section 5307 and FTA Section 5309 FG projects submitted to MTC for TCP programming consideration that have passed the screening process will be assigned scores by project category as indicated in Table 7.

Table 7. Project Scores

Project Category/Description	Project Score
Revenue Vehicle Replacement	16
Vehicle Replacement - replacement of a revenue vehicle at the end of its useful life (see Section III, Table 2). Vehicles previously purchased with revenue sources other than federal funds are eligible for FTA formula funding as long as vehicles meet the replacement age. Vehicles are to be replaced with vehicles of similar size (up to 5' size differential) and seating capacity, e.g. a 40-foot coach replaced with a 40-foot coach and not an articulated vehicle. If an operator is electing to purchase smaller buses, or do a sub-fleet reconfiguration, the replacement sub-fleet will have a comparable number of seats as the vehicles being replaced. Paratransit vehicles can be replaced with the next larger vehicle providing the existing vehicle is operated for the useful life period of the vehicle that is being upgraded to. Any other significant upgrade in size will be considered as vehicle expansion and not vehicle replacement. For urgent replacements not the result of deferred maintenance and replacement of assets 20% older than the usual replacement cycle (e.g. 12 or 16 years for buses depending on type of bus), a project may receive an additional point.	
Revenue Vehicle Rehabilitation	16
Vehicle Rehabilitation - major maintenance, designed to extend the useful life of a revenue vehicle (+5 years for buses, +20 years for railcars, +20 years for heavy hull ferries)	

Used Vehicle Replacement	16
Used Vehicle Replacement - replacement of a vehicle purchased used (applicable to buses, ferries, and rail cars) is eligible for federal, state, and local funding that MTC administers. Funds in this category include FTA Section 5307, STP, CMAQ, STIP, and Net Toll Revenues. However, funding for replacement of the used vehicle will be limited to a proportionate share of the total project cost, equal to the number of years the used vehicle is operated beyond its standard useful life divided by its standard useful life (e.g. if a transit property retained and operated a used transit bus for 5 years, it is eligible to receive 5/12 th of the allowable programming for the project).	
Fixed Guideway Replacement / Rehabilitation	16
Rehabilitation/Replacement Fixed Guideway - projects replacing or rehabilitating fixed guideway equipment at the end of its useful life, including rail, guideway, bridges, traction power systems, wayside train control systems, overhead wires, cable car infrastructure, and computer/communications systems with a primary purpose of communicating with or controlling fixed guideway equipment. Projects in this category are subject to fixed guideway project caps.	
Ferry Propulsion Systems	16
Ferry Propulsion Replacement—projects defined as the mid-life replacement and rehabilitation of ferry propulsion systems in order that vessels are able to reach their 25-year useful life. Projects in this category are subject to fixed guideway project caps.	
Ferry Major Component	16
Ferry Major Components—projects associated with propulsion system, inspection, and navigational equipment required to reach the full economic life of a ferry vessel. Projects in this category are subject to fixed guideway project caps.	
Ferry Fixed Guideway Connectors	16
Ferry Fixed Guideway Connectors—floats, gangways, and ramps associated with the safe moorage and boarding of passengers to/from ferry vessels. Projects in this category are subject to fixed guideway project caps.	
Revenue Vehicle Communication Equipment	16
Communication Equipment - Includes computer/communications systems with a primary purpose of communicating with and/or location/navigation of revenue vehicles, such as GPS/AVL systems. For operators who replace radios and base stations when the revenue vehicle/vessel is replaced, no additional system wide replacement will be funded through the regional capital priorities. For bus operators who elect the system wide replacement option, the regional participation in the project will be constrained by the radio allowance in the standard bus price (provided that the radio/base station is not replaced prior to the applicable replacement cycle).	

Non-TransLink® Fare Collection/Fareboxes	16
Revenue vehicle and wayside fare equipment are eligible for replacement as score 16. The maximum programming allowance for revenue vehicle fare equipment purchased separately from revenue vehicles is outlined in Section III, Project Funding Caps, providing the fare equipment is not replaced prior to the 12-year replacement cycle for buses. Fare equipment must be compatible with the TransLink® fare collection system.	
TransLink®	16
TransLink® - replacement of TransLink® fare collection equipment related to revenue vehicles and faregates.	
Safety	15
Safety/Security - projects addressing potential threats to life and/or property. The project may be maintenance of existing equipment or new safety capital investments. Includes computer/communications systems with a primary purpose of communicating with/controlling safety systems, including ventilation fans, fire suppression, fire alarm, intruder detection, CCTV cameras, and emergency “blue light” phones. Adequate justification that the proposed project will address safety and/or security issues must be provided. The TFWG will be provided an opportunity to review proposed projects before a project is programmed funds in a final program.	
ADA/Non Vehicle Access Improvement	14
ADA - capital projects needed for ADA <i>compliance</i> . Does not cover routine replacement of ADA-related capital items. Project sponsor must provide detailed justification that the project is proposed to comply with ADA. Subject to TFWG review.	
Fixed/Heavy Equipment, Maintenance/Operating Facilities	13
Fixed/Heavy equipment and Operations/Maintenance facility - replacement/rehabilitation of major maintenance equipment, generally with a unit value over \$10,000; replacement/rehabilitation of facilities on a schedule based upon the useful life of the components.	
Station/Intermodal Stations/Parking Rehabilitation	12
Stations/Intermodal Centers/Patron Parking Replacement/Rehab - replacement/rehabilitation of passenger facilities. Includes computer/communications systems with a primary purpose of communicating with/controlling escalators or elevators, and public address or platform display systems at stations or platforms.	
Service Vehicles	11
Service Vehicles - replacement/rehabilitation of non-revenue and service vehicles based on useful life schedules.	
Tools and Equipment	10
Tools and Equipment - maintenance tools and equipment, generally with a unit value below \$10,000.	

Office Equipment	9
Office Equipment - computers, copiers, fax machines, etc. Includes administrative - MIS, financial, HR, scheduling, and maintenance management systems.	
Preventive Maintenance	9
Preventive Maintenance - ongoing maintenance expenses (including labor and capital costs) of revenue and non-revenue vehicles that do not extend the life of the vehicle. This includes mid-life change-out of tires, tubes, engines and transmissions that do not extend the life of the vehicle beyond the twelve years life cycle. <i>Note: Requests for preventive maintenance to meet budgetary shortfalls will be guided by the provisions outlined in Section V. Operators who wish to exchange a capital project for preventive maintenance funding in order to use their local funds to ease federal constraints or strictly as a financing mechanism may do so providing that the replacement asset funded with local funds is comparable to the asset being replaced and is maintained in service by the purchasing operator for its full useful life as outlined in Section V.</i>	
Operational Improvements/Enhancements	8
Operational Improvement/Enhancements - any project proposed to improve and/or enhance the efficiency of a transit facility.	
Operations	8
Operations—costs associated with transit operations such as the ongoing maintenance of transit vehicles including the cost of salaries. See Section V, Limited Use of FTA Funds for Operating Purposes.	
Expansion	8
Expansion - any project needed to support expanded service levels.	

V. PROGRAMMING POLICIES

Project Apportionment Model for Eligible Urbanized Areas

There are four elements that need to be considered to determine operators' urbanized area apportionment: multi-county agreements, high scoring capital needs, the 10% flexible set-aside amounts, and the 10% ADA set-aside amounts. The Regional Priority Model, as explained in paragraph (a), establishes funding priority for apportioning high scoring capital projects to eligible urbanized areas. Funding may be limited by multi-county agreements as explained in Paragraph (b) below.

Eligible programming revenues are net of the 10% flexible set-aside as outlined in paragraph (c) below, the 10% ADA set-aside shown in paragraph (d) below, and the Vehicle Procurement Reserve and Preventive Maintenance Reserve described at the end of this section.

- a) *Regional Priority Programming Model* - The 2000 census changes to the region's urbanized areas made numerous operators eligible to claim funds in more than one urbanized area. This has necessitated a procedure for apportioning projects to eligible urbanized areas. The *Regional Priority Model*, as described below, was fashioned to prioritize funds for the replacement of the region's transit capital plant, while minimizing the impact of the 2000 census boundary changes.

The model assumes a regional programming perspective and constrains regional capital demand to the amount of funds available to the region, prior to apportioning projects to urbanized areas. It then apportions projects to urbanized areas in the following order:

- i. Funds are apportioned first for operators that are the exclusive claimant in a single UA (e.g. LAVTA, Fairfield, etc.)
 - ii. Fund projects for operators that are restricted to receiving funds in one urbanized area (e.g. SFMTA, AC, WestCat, CCCTA, etc.)
 - iii. Fund balance of operator projects among multiple urbanized areas, as eligibility allows, with the objective of fully funding as many high scoring projects as possible.
 - iv. Reduce capital projects proportionately in urbanized areas where need exceeds funds available.
 - v. Fund lower scoring projects (additional programming flexibility) to operators in urbanized areas where apportionments exceed project need.
- b) *Multi-County Agreements*: For some operators, urbanized area (UA) apportionments are guided by multi-county agreements. Aside from the acknowledged agreements, funds are apportioned based on the regional priority model.

There are three specific agreements that are being honored under the negotiated multi-county agreement model: the Caltrain Joint Powers Board Agreement, the Altamont Commuter Express (ACE) Cooperative Services Agreement and the Sonoma County-Santa Rosa City Bus Agreement.

Consideration for future agreements will include representation from each interested county, interested transit property, or an appointed designee, and be approved by all operators in the affected UA and MTC.

- c) *10% Flexible Set-Aside*: Prior to running the apportionment model, 10% of the FTA Section 5307 funds from each of the urbanized areas is redistributed based on

apportioned ridership and FTA revenue factors, weighted equally. Table 8 shows the percentages by operator and urbanized area for this programming period. Urbanized areas not shown are either urbanized areas with only one operator or urbanized areas that have opted to not participate in the set-aside. Descriptions of these formulas are outlined below.

Apportioned Ridership: Ridership is apportioned based on how an operator reports their revenue miles to FTA. As an example, BART reports their revenue miles 71.28% in the San Francisco-Oakland UA, 26.14% in the Concord UA, and 2.58% in the Antioch UA. Instead of counting their total ridership, or 97.1 million, in each UA, ridership is apportioned to each UA based on the reporting factors.

FTA Revenue Factors: The set-aside is distributed on FTA revenue factors - bus tier and fixed guideway tier. Factors included in the analysis are revenue vehicle miles, passenger miles, and operating cost. Small-urbanized area set-asides are distributed to eligible operators based on a rough estimation of population and population density.

Table 8: 10% Flexible Set-aside Shares by Urbanized Area and Operator

Operator	SFO	SJ	Concord	Antioch	Vallejo	Napa	Livermore	Gilroy-MH	Petaluma
AC Transit	15.7%								
ACE	1.5%		1.6%						
BART	25.4%		76.9%	47.9%					
Caltrain	3.3%	9.6%							
CCCTA			16.5%						
ECCTA				52.1%					
GGBHTD	5.1%								63.2%
LAVTA			5.0%				100.0%		
Napa					13.5%	100.0%			
Petaluma									6.7%
SamTrans	4.8%								
SFMTA	40.9%								
Sonoma County									30.1%
Union City	0.2%								
Vallejo/Benicia	2.0%				86.5%				
VTA		90.4%						100.0%	
WestCat	0.5%								
WETA (Alameda Ferry)	0.6%								
Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Notes:

- 1) Urbanized Areas not shown are not participating in 10% flexible set-aside policy.
- 2) Formula based on hybrid of apportioned ridership and revenue factors (equally weighted).
- 3) Ridership based on MTC's 2004 Statistical Summary of Bay Area Operators (FY 2002-03 data).
- 4) Revenue factors based on FY 2001-2002 NTD data received from operators.
- 5) Shares for Petaluma Transit and WETA based on 2007 data.
- 6) To calculate funding amounts, multiply 10% of related urbanized area revenue estimate against percentages shown for operators in that urbanized area.

- d) *10% ADA Paratransit Service Set-Aside*: SAFETEA establishes a cap on the use of large urbanized area capital funds for ADA paratransit services not to exceed 10% of the region's apportionment of FTA Section 5307 funds. An amount equal to 10% of each participating urbanized area's FTA Section 5307 apportionment will be set-aside to assist operators in defraying ADA paratransit operating expenses. The purpose of this set-aside is to ensure that in any one year, a transit operator can use these funds to provide ADA service levels necessary to maintain compliance with the federal law, without impacting existing levels of fixed route service. ADA set-aside programmed to small UA operators will not impact eligible programming amounts in large UAs. Table 9 shows the percentages by operator and urbanized area for this programming period.

Table 9: ADA Set-aside Amounts by Urbanized Area and Operator

Operator	San Francisco-Oakland	San Jose	Concord	Antioch	Vallejo	Livermore	Gilroy-MH
AC Transit	31.1%						
ACE	1.7%		14.1%				
BART	14.7%		46.0%	22.2%			
Caltrain	3.3%	15.0%					
CCCTA			32.3%				
Fairfield-Suisun Transit	Not Applicable						
GGBHTD	8.8%						
LAVTA			7.6%			100.0%	
Napa VINE					7.0%		
SFMTA	29.5%						
SamTrans	7.8%						
SCVTA		85.0%					100.0%
SR City Bus	Not Applicable						
Sonoma Cty Transit	Not Applicable						
Tri-Delta				77.8%			
Union City							
Vacaville	Not Applicable						
Vallejo Transit	2.1%				93.0%		
WestCat	0.9%						
Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Notes:

- 1) Urbanized Areas not shown are not participating in 10% ADA set-aside policy.
- 2) Formula roughly based on generations with an element of the rail operator portion allotted to bus operators because bus operators generally shoulder a greater share of the ADA operations.
- 3) To calculate funding amounts, multiply 10% of related urbanized area revenue estimate against percentages shown for operators in that urbanized area.

An operator may use its share of the FTA Section 5307 set-aside for capital purposes or preventive maintenance if the operator can certify that:

- Their ADA paratransit operating costs are fully funded in its proposed annual budget;

- For jointly funded paratransit services, operators' FTA Section 5307 ADA set-aside shares have been jointly considered in making decisions on ADA service levels and revenues.

If MTC is satisfied with the operator's certification, the operator may re-program its set-aside for any unfunded transit capital projects or preventive maintenance. To ensure that the Section 5307 10% set-aside funding is duly considered for annual ADA paratransit needs, there will be no multi-year programming of the 10% ADA set-aside to capital-only purposes.

Limited Use of FTA Funds for Operating Purposes

FTA permits the use of FTA Section 5307 small urbanized funds to be used for operating purposes. For operators eligible to claim in both large and small urbanized areas, the amount of funds used for operating will be deducted from the amount of capital claimed in the large UA.

Specified Urbanized Area Flexibility

In urbanized areas with only one transit operator (Fairfield, Vacaville, Napa) greater flexibility for funding lower scoring projects will be allowed, providing that other operators in the region are not impacted. These operators will also be allowed to use funds for operating, without reduction of funding for capital projects, providing that capital is adequately maintained and replaced on a reasonable schedule as outlined in each operator's SRTPs and in accordance with goals outlined in the RTP for maintaining the region's capital plant (maintenance of effort).

Transit Enhancements

TEA-21 requires that 1% of the FTA section 5307 apportionment be set aside for transit enhancements. Eligible projects include: historic preservation, rehabilitation, and operation of historic mass transportation buildings, structures, and facilities, bus shelters, landscaping and other scenic beautification, public art, pedestrian access and walkways, bicycle access, including bicycle storage facilities, transit connections to parks, signage, and enhanced access for persons with disabilities to mass transportation.

Due to the overwhelming needs to sustain the current transit capital plant, funded score 16 projects which can be identified as eligible transit enhancement project candidates would count against the 1% set-aside for transit enhancements, including, but not limited to, rehabilitation of cable cars and historic cars, and bike racks to be procured as part of a bus purchase. Any remaining balance will be put into a reserve for funding eligible projects in subsequent years.

Preventive Maintenance Funding for Operating Purposes (non-Reserve or Flexible Set-Aside Funds)

Preventive maintenance will be considered a score 9 funding priority in Transit Capital Priorities, unless a fiscal need exists and can be demonstrated accordingly by the requesting operator based on the guidelines outlined below. MTC must declare that a fiscal need exists to fund preventive maintenance where such action would displace higher scoring capital projects ready to move forward in a given fiscal year. A fiscal need can be declared if the following conditions exist:

- An operator can demonstrate in a board-approved budget or budget assumption that a shortfall exists; this budget or budget assumption must consider MTC's latest adopted fund estimate and/or Short-Range Transit Plan forecasts for transit-specific revenues.
- An operator must demonstrate that all reasonable cost control and revenue generation strategies have been implemented and that a residual shortfall remains.
- An operator can demonstrate that the shortfall, if not addressed, would result in a significant service reduction.

The Commission will consider the severity of the shortfall and the scope and impact of the service cuts in determining whether fiscal need exists. Operators establishing a fiscal need must also adhere to the following four requirements in order to be eligible to receive funding for preventive maintenance:

- i. Operators must successfully show a board approved bridging strategy that will sustain financial recovery beyond the year for which preventive maintenance is requested.
- ii. The bridging strategy should not rely on future preventive maintenance funding to achieve a balanced budget. In other words, should a service adjustment be required to balance the budget over the long run, preventive maintenance should not be invoked as a stopgap to inevitable service reductions.
- iii. Funds programmed to preventive maintenance should not be considered as a mechanism to sustain or replenish operating reserves.
- iv. Operators requesting FTA formula funds to meet operating shortfalls will be limited to two years preventive maintenance funding within a 12-year period.

Concepts for Preventive Maintenance Allowance – For an individual operator to make use of preventive maintenance funding, other operators in the region must be able to move forward with planned capital replacement. The following two mechanisms will ensure both protection of capital replacement and flexibility for preventive maintenance:

- Capital Exchange – In this option, an operator could elect to remove an eligible capital project from TCP funding consideration for the useful life of the asset in

exchange for preventive maintenance funding. The funding is limited to the amount of capital funding an operator would have received under the current TCP policy in a normal economic climate. If an operator elects to replace the asset - removed from regional competition for funding under these provisions – earlier than the timeline established for its useful life, the replacement will be considered an expansion project.

- Negotiated Agreement within an Urbanized Area – In the second option, an operator may negotiate with the other operators in the affected urbanized areas to receive an amount of preventive maintenance funding, providing that a firewall is established between the affected urbanized area(s) and all other urbanized areas. This will ensure that other operators' high-scoring capital replacement projects are not jeopardized.

The requesting operator will enter into an MOU with MTC and, if applicable, other transit properties affected by the preventive maintenance agreement. The agreement will embody the four eligibility requirements outlined above as well as any other terms and conditions of the agreement. It is the intent of this policy that funding for preventive maintenance will not increase the region's transit capital shortfall.

Reserve for Major Vehicle Procurements

The proposed TCP programs for FY 2009-10, FY 2010-11 and FY 2011-12 will include a vehicle procurement reserve which will direct approximately \$150 million of revenues (total over the three-year program) to help meet the future peak expenditures for major vehicle procurement projects, including BART's and Caltrain's railcar replacements, and SFMTA's trolley car replacement. Most of the costs for the major procurements will be incurred in the FY 2015 to FY 2018 period, causing total Score 16 needs in those years to far exceed projected revenues. Conversely, revenues during the FY 2010 to FY 2012 period are expected to exceed capped Score 16 needs by approximately \$200 million.

MTC staff has been working with BART to develop a financing plan for the BART project, and the regional Capital Improvement Program projections used to inform the development of the TCP policy assume that the region will dedicate approximately \$730 million in FTA funds to the first phase of the project over the next ten years. The first phase funds approximately \$1 billion of the total project, and includes all project development work, prototypes and testing, and an initial order of 200 vehicles. While the financing plan is still under development and has not yet been presented to the Commission for approval, this element of the TCP policy is based on a commitment to this project phasing plan. MTC staff will also work with Caltrain and SFMTA to develop detailed approaches to funding their projects. Specific policies for programming the reserve funds will be recommended in future amendments to this policy.

Preventive Maintenance Reserve

In order to help address operating shortfalls, the proposed TCP programs for FY 2009-10, FY 2010-11 and FY 2011-12 will dedicate approximately \$50 million over the three-year program as flexible funding that can be used for any eligible project, including preventive maintenance. The

funds are proposed to be distributed using the flexible set-aside formula detailed in Table 8. The funds will not be subject to the current TCP preventive maintenance policy requiring that assets exchanged for PM be removed from the program for the life cycle of the asset. Operators will have flexibility in terms of which year to request the flexible funds, and may request all or a portion of their share in any of the three years, FY10 – FY12. Operators must provide a narrative or excerpts from their adopted budget or SRTP explaining how the use of preventive maintenance fits within a strategy to stabilize their operating budget. The amounts of each operator's allocation of the Preventive Maintenance Reserve is shown in Table 10.

Table 10. Preventive Maintenance Reserve FY 2010-2012

Operator	Total
AC Transit	4,948,876
ACE	565,869
BART	12,599,452
Caltrain	1,977,128
CCCTA	827,797
ECCTA	775,548
GGBHTD	1,781,012
LAVTA	580,921
Napa VINE	540,712
Petaluma	16,404
SamTrans	1,514,718
SFMTA	12,929,243
Sonoma Transit	74,255
Union City	57,114
Vallejo	1,499,545
VTa	8,971,810
WCCTA	146,362
WETA (Alameda Ferry)	193,233
Total	50,000,000

Notes:

Programming for WETA will be made contingent on adoption of the transition plan for assumption of responsibility for the Alameda and Vallejo ferry services required by SB 976.

APPENDIX 1 – BOARD RESOLUTION

Sample Resolution of Board Support

FTA Section 5307 and 5309 Fixed Guideway (FG) Project and Surface Transportation Program Application

Resolution No. _____

AUTHORIZING THE FILING OF AN APPLICATION FOR FTA SECTION 5307 AND 5309 FIXED GUIDEWAY(FG) AND SURFACE TRANSPORTATION PROGRAMS FUNDING FOR (project name) AND COMMITTING THE NECESSARY LOCAL MATCH FOR THE PROJECT(S) AND STATING THE ASSURANCE OF (name of jurisdiction) TO COMPLETE THE PROJECT

WHEREAS, the successor to the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) (Public Law Public Law 109-59, August 10, 2005) is anticipated to continue the Federal Transit Administration Formula Programs (23 U.S.C. §53) and Surface Transportation Program (23 U.S.C. § 133); and

WHEREAS, pursuant to SAFETEA-LU, and the regulations promulgated there under, eligible project sponsors wishing to receive Federal Transit Administration (FTA) Section 5307 and Section 5309 Fixed Guideway (FG) Formula or Surface Transportation Program grants for a project shall submit an application first with the appropriate metropolitan transportation planning organization (MPO), for review and inclusion in the MPO's Transportation Improvement Program (TIP); and

WHEREAS, the Metropolitan Transportation Commission is the MPO for the San Francisco Bay region; and

WHEREAS, (applicant) is an eligible project sponsor for FTA Section 5307, FTA 5309 FG, or Surface Transportation Program funds; and

WHEREAS, (applicant) wishes to submit a grant application to MTC for funds from the FY 2008-09 FTA Section 5307 and FTA 5309 FG, or Surface Transportation Program funds for the following project:

(project description) .

WHEREAS, MTC requires, as part of the application, a resolution stating the following:

- 1) the commitment of necessary local matching funds of at least of 20% for FTA Section 5307 and FTA Section 5309 FG and 11.47% for Surface Transportation Program funds; and

- 2) that the sponsor understands that the FTA Section 5307, FTA Section 5309 FG and Surface Transportation Programs funding is fixed at the programmed amount, and therefore any cost increase cannot be expected to be funded FTA Section 5307, FTA Section 5309 FG and Surface Transportation Programs funds; and
- 3) the assurance of the sponsor to complete the project as described in the application, and if approved, as programmed in MTC's TIP; and
- 4) that the sponsor understands that FTA funds must be obligated within three years of programming and the Surface Transportation Program funds must be obligated by September 30 of the year that the project is programmed for in the TIP, or the project may be removed from the program.

Resolved, that (agency name) is an eligible sponsor of projects in the FTA Sections 5307 and 5309 FG and STP Programs; and be it further

Resolved, that (agency name) is authorized to submit an application for FTA Sections 5307 and 5309 FG and STP funds for (project name); and be it further

Resolved, that there is no legal impediment to (agency name) making applications for FTA Sections 5307 and 5309 FG and STP funds; and be it further

Resolved, that there is no pending or threatened litigation which might in any way adversely affect the proposed project, or the ability of (agency name) to deliver such project; and be it further

NOW, THEREFORE, BE IT RESOLVED by (governing board name) that (applicant) is authorized to execute and file an application for funding under the FTA Section 5307, FTA Section 5309 FG, and/or Surface Transportation Program in the amount of (\$request) for (project description); and

BE IT FURTHER RESOLVED that (governing board) by adopting this resolution does hereby state that:

- 1) (applicant) will provide (\$ match amount) in local matching funds; and
- 2) (applicant) understands that the FTA Sections 5307 and 5309 FG and STP funding for the project is fixed at (\$ actual amount), and that any cost increases must be funded by the (applicant) from local matching funds, and that (applicant) does not expect any cost increases to be funded with FTA Sections 5307 and 5309 FG and Surface Transportation Program funds; and

- 3) (project name) will be built as described in this resolution and, if approved, for the amount shown in the Metropolitan Transportation Commission (MTC) Transportation Improvement Program (TIP) with obligation occurring within the timeframe established below; and
- 4) The program funds are expected to be obligated by September 30 of the year the project is programmed for in the TIP.

BE IT FURTHER RESOLVED that a copy of this resolution will be transmitted to the MTC in prior to MTC programming the FTA Section 5307 and 5309 FG or Surface Transportation Program funded project in the Transportation Improvement Program (TIP); and

BE IT FURTHER RESOLVED that the MTC is requested to support the application for the project described in the resolution and to program the project, if approved, in MTC's TIP.

APPENDIX 2 – OPINION OF COUNSEL

Sample Opinion of Legal Counsel

FTA Section 5307, FTA Section 5309 FG, and STP Project Application

(Date)

To: Metropolitan Transportation Commission

Fr: (Applicant)

Re: Eligibility for FTA Section 5307 Program, FTA 5309 Fixed Guideway (FG) Program, and Surface Transportation Program (STP)

This communication will serve as the requisite opinion of counsel in connection with the application of (Applicant) _____ for funding from the FTA Section 5307 and 5309 FG, and STP Programs made available pursuant to the Reauthorization of SAFETEA Legislation.

1. (Applicant)_____ is an eligible sponsor of projects for the FTA Section 5307, FTA Section 5309 FG, and STP Programs.
2. (Applicant) _____ is authorized to submit an application for FTA Section 5307, FTA Section 5309 FG, and STP funding for (project) _____.
3. I have reviewed the pertinent state laws and I am of the opinion that there is no legal impediment to (Applicant) _____ making applications FTA Section 5307, FTA Section 5309 FG, and STP Program funds. Furthermore, as a result of my examinations, I find that there is no pending or threatened litigation which might in any way adversely affect the proposed projects, or the ability of (Applicant) _____ to carry out such projects.

Sincerely,

Legal Counsel

Print name

Optional Language to add to the Resolution for Local Support

Project sponsors have the option of consolidating the ‘Opinion of Legal Counsel’ within the Resolution of Local Support, by incorporating the following statements into the Resolution of Local Support:

Resolved, that (agency name) is an eligible sponsor of projects in the FTA Sections 5307 and 5309 FG and STP Programs; and be it further

Resolved, that (agency name) is authorized to submit an application for FTA Sections 5307 and 5309 FG and STP funds for (project name); and be it further

Resolved, that there is no legal impediment to (agency name) making applications for FTA Sections 5307 and 5309 FG and STP funds; and be it further

Resolved, that there is no pending or threatened litigation which might in any way adversely affect the proposed project, or the ability of (agency name) to deliver such project; and be it further
